About

Front-End Developer with **3.5+** years of experience building and maintaining high-traffic websites using ReactJS, TypeScript, and Remix. Passionate about building performant and user-centric web experiences. Eager to contribute my skills and knowledge to a collaborative team.

Experience

Aiven Oy | Helsinki, Finland (Oct 2020 – May 2024)

Web-developer

- Developed marketing website, aiven.io, used by >4k users daily**(Remix, TS, Sanity)**.
- Wrote e2e integration tests to improve the site reliability**(playwright, react-testing-library)**.
- Led the revamp of the company's career page. Consequently, **the engagement time has increased by 23%**.
- **Integrated A/B testing tool** with Posthog, streamlining experiment execution and enhancing data accessibility.
- Run various experiments with Posthog and suggested changes to improve user experience.
- Optimised SEO performance by building a glossary on the website
- Collaborated with cross-functional teams and led incorporating workshops to DevCenter page

AlfaGroup | Moscow, Russia (Apr 2020 – Aug 2020)

Front-end developer

- Designed and developed multi functional platform used >4k customers**(JS, Vue, React)**.
- **Developed and implemented responsive web design** for platform.
- Built dynamic forms using React, incorporating Ajax and client-side validation before submission to the backend.
- **Led platform migration from JS and Vue to React**, promoting a unified codebase and streamlining future development.

3Dru | Mytishchi, Russia (Apr 2019 – Apr 2020)

Web developer

- Designed and implemented new features and functionalities for the company website.
- Maintained and updated the website content.
- Performed regular website maintenance tasks such as fixing bugs, optimizing website performance, maintaining website security and testing website functionality across different browsers and devices.
